

A person with long brown hair tied in a ponytail, wearing a yellow rain jacket and a large black backpack, stands with their back to the camera. They are looking across a calm, clear lake that reflects the surrounding green pine trees and the rugged, rocky mountains in the distance. A faint rainbow is visible on the mountain slope. The sky is overcast with soft, diffused light.

COVATIONBIO™

OUR MISSION IS
TO MAKE SUSTAINABLE,
HIGH-PERFORMANCE
BIOMATERIALS
ACCESSIBLE TO ALL

OUR VALUES

SUSTAINABILITY IS FUNDAMENTAL

Our materials are designed for performance but are judged by how they impact our planet. To us, performance and sustainability are one. As CovationBio, we live in a world without compromise, made possible by remarkable science.

COVATIONBIO™ SUSTAINABILITY COMMITMENTS NATURALLY ALIGN WITH FOUR OF THE UNITED NATIONS SUSTAINABLE DEVELOPMENT GOALS.

8 DECENT WORK AND ECONOMIC GROWTH

- Treat people with respect
- Prioritize safety
- Grow our business responsibly
- Promote transparency throughout our supply chain

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

- Remove “dead-end science” from the supply chain by decoupling the production of high-performance materials from fossil fuels and fossil feedstocks
- Use natural resources efficiently and responsibly
- Responsibly manage materials throughout their life cycles
- Increase recyclability and recycle rates for final products

13 CLIMATE ACTION

- Dramatically reduce emissions of greenhouse gases
- Reduce and offset our Scope 1 and 2 emissions
- Adopt policies that will globally reduce and/or mitigate climate change

15 LIFE ON LAND

- Promote sustainable use of terrestrial resources
- Restore terrestrial ecosystems through the support of regenerative agriculture
- Advocate for the equitable use of genetic resources
- Leverage our partnership with Truterra, a farmer-driven sustainability company dedicated to advancing and accelerating on-farm sustainability, at scale

Our bio-based products are made using annually renewable plant-based ingredients to help defossilize the supply chain. Our products reduce industry's dependence on oil and petrochemicals, shrinking the impact on the environment.

We use life cycle assessment (LCA) to measure the potential environmental impacts of our products. We have completed LCAs for Sorona®, Susterra®, and Zemea®, and we anticipate releasing updated LCAs for these products in 2023.

Answers the global call for sustainably sourced fabrics, bridging the personal and societal at a defining moment in our ecological stewardship

100% plant-based Susterra® brings sustainability to many footwear, gear, apparel and synthetic material applications

Naturally-derived, and sustainable, Zemea® brings opportunities for formulators across many applications the ability to reduce or eliminate the need for petroleum-based glycols

COVATIONBIO MEMBERSHIPS

We hope our unwavering commitment to achieving sustainability at scale inspires pride amongst our co-workers and business partners, and empowers consumers to make choices

that manifest the life they want for themselves and future generations. The work is necessary and ongoing. Join us.

WE ARE A FORCE OF NATURE.
